The McCloskey I44R recirculating impactor combines the productivity of our 43" impactor with the versatility of a full screening and recirculating system, allowing operators to produce a crushed and screened final product with one machine. The combination of the impactor with the High Energy Screenbox and a recirculating conveyor deliver maximum productivity and unmatched portability.

The I44R is the perfect showcase of a mobile contractor crushing system. Compact and portable, it provides the level of production required to complete the project rapidly.

The I44R’s versatility makes it ideal for a variety of applications worldwide.

I44R HIGH PERFORMANCE IMPACT CRUSHER

Recirculation Allows operators to produce a crushed and screened final product with one machine

Conveyor Extended 48" main conveyor as standard, giving large stockpile capacity. Conveyor lowers and raises hydraulically and is easily removable for maintenance.

Screen 5x10 High Energy Screenbox has user-friendly wedge system for faster screen change.

Feeder Folding Hardox® hopper mounted over vibrating feeder with integral pre-screen. Feeder rate can be regulated manually or automatically by the load-sensing jaw.

Crusher Pre-Screen Optional crusher pre-screen maximizes crusher efficiency and creates additional product.
