

512 HIGH PERFORMANCE TROMMELS

A / R

The 512 screeners provide McCloskey International's customers with the functionality of our highly successful trommel line-up with an extended fines conveyor on the 512A, or patented radial conveyor on the 512R. The 512 trommels are best suited for mid-size operations requiring portability and proven screening performance.

As the top selling mid-size portable trommel in North America, the 512 offers a combination of high production rates, versatility, ease of use and unrivalled strength that has ensured this screener's popularity with top soil producers, contractors, and landscape supply operators.

Brushes

Ground level adjustable brushes keep the screen clean and rotate away from drum for ease of drum change.

Drum Drive

Solid vulcanized, independently powered drive wheels for maximum torque, traction and life.

Feed Hopper

2.9m (9' - 6") low load height, large hopper capacity of 3.4m³ (4.5 yd³).

Radial Conveyor

Patented radial conveyor with 180° swing and variable discharge height for maximum stockpiling flexibility.

Lifting Bars

Deep lifting bars on drum provide aggressive screening action.

512

Engine: 85–100 hp (63–75 kw) Diesel
