

S190 HIGH ENERGY TRIPLEDECK SCREENER

McCloskey Tripledecks boast an array of features and benefits which elevate the models above all the competitors in its class. The S190 TD has the highest combined true screening area across three decks.

The McCloskey Tripledeck models are uniquely produced with a cross conveyor and a fully hydraulic fold fourth conveyor as standard, reducing setup time and ease of maintenance

With quality components throughout, the McCloskey Tripledecks offer a reliable solution to the demands of customer application needs.

Screenbox
High Energy 20x5 (6100x1524mm) screenbox provides the highest combined true screening area across three decks.

Cross Conveyor
Cross conveyor replaces conventional chute and eliminates spillage and blockages.

Conveyor
Hydraulic folding 4th conveyor positioning allows for multiple height and angle options.

Wedge System
User friendly wedge system ensures faster screen change.

Linkage System
Hydraulic Screenbox linkage system, allows greater accessibility for screen change and enables optimum screen coverage at varying screenbox angles.
